

Manza Ocean Park Day - October 22nd 2016

Manza Ocean Park

Starting in the day around 1pm 9 JETs went to sweat it out and run the Manza Beach obstacle course. The original price was set at ¥2550 per person, but with Jenna's application to the OkiAJET fund we voted in favour to subsidize each attendee by ¥750, taking their total cost now to ¥1800 per person. I have laid out the costs below.

	In Account	In Float (¥Yen)	In Float (\$USD)
Pre-Manza Ocean Park Day	¥12,2773	¥6278	\$5.40
Current Balance	¥10,2773	¥1,8972	\$5.40

I removed ¥2,0000 for event, and we used ¥6750 to cover the agreed upon subsidies, plus ¥556 for water and cups from the conbini (total for event ¥7306). The remaining ¥1,2694 was added to float.

Treasurers' thoughts moving forward

- Need to find a way to organize and distribute money in cases when the treasurer is unable to attend the events, otherwise I have to spend sometimes over an hour travel each way to just deliver and account for the spending of the money.
- Need to budget and consider any additional costs like water for events that take place on a hot day.
